Hiya, folks! Well, the theme for this issue is fairly obvious from the cover. Assorted short stories and sketches of the Pornobabies by their fans - and a couple of bits by myself, of course. Putting this baby together took a lot longer than I expected - hence this handwritten intro. I'm trying to have this ready for the conference 1995, which is a couple days away, so I got no time to arnntwist someone into doing the typesets. Can't wait 'till I got my own computer, but more on that later. Meanwhile, drop all thoughts of violating my and my friend's copyrights. Just for example, the fella who drew her ... is an ex-special forces sniper. So just relax, and please, my friends,

ENJOY THE SHOW!
